SUMMARY

Full Stack developer adept in frontend development and UI/UX design, proficient in crafting immersive digital experiences that seamlessly blend functionality with aesthetics.

EXPERIENCE

Frontend Developer Intern

June 2024 - Aug 2024

Front-end developer intern at Agumentik

- Designed and developed user interfaces for various web applications, focusing on intuitive navigation and user experience optimization.
- Utilized a combination of various frontend technologies and frameworks to implement responsive and visually appealing designs.

UI/UX Designer and Web Developer

Freelance and Independent Projects

- Worked as a freelancer on multiple projects, managing all aspects of design and development to deliver high-quality results within project deadlines.

Illustrator

Illustration Projects

- Created illustrations for "A Practical Guide to Scripting Scientific Manuscript" and various artworks.
- Produced diverse artworks for paid and unpaid projects, demonstrating versatility.

PROJECTS

RojPagar ([GitHub Repository](#))

April 2024 – Present

- Empowers daily wage earners with job opportunities and skills enhancement.
- Connects labourers and employers through intuitive web and mobile interfaces.
- Utilizes AI for personalized job recommendations and fraud detection.

PetRes | *React, MongoDB, Express, Node Js.* ([GitHub Repository](#))

March 2024 - May 2024

- "petRes" a MERN Stack website enabling pet adoption and an integrated online store for pet products.
- Password encryption and authentication protocols to safeguard user data and ensure secure login.
- Integrated online pet store in "petRes" for seamless shopping, enhancing user experience and business growth.

Notifier | Python based desktop notification app ([GitHub Repository](#))

Dec 2023

- Developed a Python-based desktop notification app with a GUI using libraries such as Tkinter, Plyer, PIL, and time.
- Implemented features allowing users to set reminders and messages for future notifications.
- Designed an intuitive graphical user interface (GUI) for ease of use and navigation.
